Program Title: Professional Excellence: Exploring the ATD Competency Model and CPLP

This program is a must for anyone who works in talent development, is passionate about the profession and desires to perform his or her work with excellence.

A panel of our chapter's own Certified Professional in Learning and Performance (CPLP) Certification holders will be sharing key insights into the ATD Competency model as well as their own personal experience (successes, challenges and lessons learned) with achieving the distinguished status of CPLP.

- Ms. Susan Weinschenk, MidWestOne Bank
- Ms. Meg Dindinger, hibu
- Ms. Jennifer Kapler, Prudential Retirement
- Ms. Gale Mote, Gale Mote Associates

We will explore applying the competency model in your organizations as well as your own career, the roles you can aspire to, the skills necessary to get there and the resources available to help you succeed!

The ATD Competency Model defines the latest competencies needed for success across the entire Talent Development industry, provides a professional development roadmap for TD leaders and practitioners and identifies TD skills gaps and ways to close them that align with individual and organizational goals.

The **CPLP** is a credential for Talent Development professionals offered by the ATD Certification Institute. It is broad-based in scope and addresses a Talent Development professional's knowledge and performance achievements in ten areas of expertise as defined by the ATD Competency Model™.
